Surprise for kids with Rising Pune Supergiant players

On 27th April 2017, Finolex Industries Ltd, Mukul Madhav Foundation & Gulf Oil took the children of the Apang Kalyankari Shikshan Sanstha on their most memorable journey yet! We had an opportunity to get the kids to meet the Rising Pune Supergiant team. During the event, a young child named Omkar gave RPSG player Jaydev Unadkat some bowling advice and if he followed the child's instructions he'd achieve a hat-trick while bowling. To our surprise, the very next game J. Unadkat achieved a maiden hat-trick while bowling, a rare phenomenon in the cricket industry. The video was featured on May 7th in several publications such as Times Of India, ScoopWhoop etc & even crossed 1 million views being the viral topic in India at the moment!

Inauguration of water conservation project at Sordi Zilla Sangli & Rede Village, Solapur

Sordi Village:

We began the first leg of the water conservation at Sordi Village (Sangli District – Maharashtra) with the able support of Finolex Industries Ltd. & the Hinduja Foundation. After the completion of work the nearby villages, roughly 3000 families will get the benefit of this reservoir.

The waste soil which was removed will be distributed for farming.

The two major advantages of this exercise:

1. Farmer lands will be more developed for agriculture, after the waste soil is spread on land
2. Water levels will increase

For the inauguration of the water reservoir Pranth Talishidar, Talati, PWD officer, Contractor, Sarpanch & Upsarpanch, & other villagers were present.

The natives were elated with the work that was taken up by us.

Rede Village:

We have initiated a water conservation project at Rede village (Solapur District) after getting requisite government sanctions. The civil work for this project has commenced & we aim to complete the construction of this reservoir by the 1st week of June, 2017.
