

Testimonial from SEARCH Gadchiroli

This is to express gratitude to Mukul Madhav Foundation, Pune, for their long association with SEARCH Gadchiroli.

The generous support from our donor, Mukul Madhav Foundation, has enabled us to make a significant impact in our Home Based Maternal, Neonatal and Child Care (HBMNCC) project, helping reach and provide crucial healthcare services to vulnerable mothers, new born and children in 39 villages of the tribal Gadchiroli district.

SEARCH's HBMNCC programme enables: diagnosis and addresses acute respiratory infections in children, reducing risk of complications; provide pre-pregnancy iron supplementation to eligible women, promoting healthier pregnancies and improving maternal, infant and child health outcomes.

In particular, our Director Dr Abhay Bang and team would like to thank Mukul Madhav Foundation for steadfast support and hope for continued cooperation for this noble cause.
